The unrest in KwaZulu-Natal (KZN) occurred between 8th and 17th July 2021. The photos below depict the widespread looting and destruction of property, which contributed to significant economic challenges for the region. The estimated loss of goods totalled approximately R50 billion. Tragically, about 354 lives were lost during this period. The inadequate preparedness and delayed response from various security services exacerbated the situation captured in these images.

In the aftermath, there has been a heightened demand for advanced security solutions, such as high-end security walls and cameras. Echo, and now SECURI-WALL, offer state-of-the-art protection. Be proactive in securing your property—consider installing a SECURI-WALL today.
